## Commercial Projects

## The Multiple Award Winning Kitchen Designer

### GARY YILMAM

As a designer I have been in the industry for over 25 years. I started my business, Best Kitchens over 20 years ago and continue to manage it successfully to date.

With extensive experience in kitchen designing, shop fitting, commercial projects and specialising in custom made joinery, I take my clients through all stages of the design process, from concept right through to completion.

There are a few key points that are very important to me when I am designing for my clients:

1. Think outside the square.
2. Nothing is impossible, I strongly believe anything can be accomplished and finding the solution is my specialty.
3. This is my passion. Designing joinery is my form of artwork - it not only portrays the client and who they are but my signature as well.

Collaborative design - working with the client is also important to me so I have a firm understanding of what the client is looking to achieve.

If you are looking for something that is unique, unusual and outstanding to compliment your home then you needn't look any further.

Kind regards,

*Gary Yilmam*
